

lpd doors

expect more

than just the door

expect more
than just the door

In publishing our 2012 Brochure, we've once again raised the bar to a whole new level.

Since our last release, we've worked tirelessly and intransigently with several of the most technologically advanced manufacturers in the world, to deliver more high quality, more competitively priced products than ever before.

But then that's exactly what you've come to expect from a business that's consistently remained at the forefront of importing and distributing internal and external doors for over 35 years and continues to stay ahead of the field.

As we all know, today's extremely prudent and style conscious consumers constantly expect more for their money, which is precisely why our comprehensive twenty twelve portfolio is purpose designed to offer optimum choice and suit all tastes and pockets by combining established favourites and proven best sellers with imaginative, aesthetically appealing, totally on-trend, price sensitive products, that push the boundaries for innovation and value for money.

Of course, you can expect more of the same in terms of the outstanding customer service and after sales support you receive from our dedicated Account Team, who, as experts in their field, are always readily available to recommend the most appropriate solution to fulfil the particular need.

We're confident that if you place your business with LPD, not only can you expect more, you'll get more than you expect, thanks to our enduring ethos to uncompromisingly deliver the right product, at the right price, at the right time!!

FSC & PEFC

As you'd expect, being a major force in the timber related industry, we take our social and environmental responsibilities extremely seriously, and are fully committed to upholding the principles of both FSC and PEFC and aligning ourselves with manufacturers who source their materials from well managed forests. Accordingly, an ever increasing number of the products we market are FSC & PEFC Accredited, and as we move forward, we're actively engaged in ensuring more and more of our products satisfy the relevant criteria.

DOOR CONSTRUCTION

Most of our Internal and External doors are manufactured using engineered component parts, all with a view to providing a product that offers a solid feel, but with the advantages that engineering brings in terms of strength and stability.

All engineered doors are faced with veneers and matching lippings.

THE LPD GUARANTEE

All doors supplied by Leeds Plywood & Doors Ltd., hereafter referred to as LPD (except those doors expressly excluded from this Guarantee by LPD, effective as at 1st November 2004) are guaranteed by LPD for ten years from date of delivery, and at that time, to be of good material and workmanship and to be free of defects which would render said doors unserviceable and/or unfit for the ordinary, recommended use.

This Guarantee is made to the original purchaser only and does not extend to subsequent purchasers during the period of this Guarantee.

For an extended version of the Guarantee, see page 103.

INTERIOR DOORS

NUVU FOLDING/SLIDING EXTERNAL DOORSETS

LPD NUVU Folding doorsets provide a unique, lifestyle solution, by cost-effectively facilitating bringing the outside inside and extending the interior to the exterior - creating increased "living" space along with a more salubrious and convivial environment to enjoy on a day-to-day basis and relax in when entertaining.

LPD NUVU Folding doorsets come in a standard height of 2095mm and are available in seven different widths - 6'; 7'; 8'; 10'; 12'; 14'; 16' - across 3 attractive and fashionable finishes, either unfinished Oak, composed of FSC certified Oak veneer applied to an engineered timber core, suitable for finishing on site to a customers' specific colour shade, pre-finished Oak, which is treated with a 3 part, high build tinted lacquer at the point of manufacture, or pre-finished White produced from FSC certified engineered softwood and protected by a durable, solvent based, 3 part, high-build exterior paint system.

In short, LPD NUVU Folding, is a premium quality, "off the shelf", modular, affordable alternative to comparable, far more expensive, bespoke doorsets, that's ideal for conservatories, garden rooms, orangeries, patios and larger verandas and specifically targeted towards anyone involved in the new build sector, property development, renovation, remodelling or refurbishment projects, able to design their brickwork opening around a standard frame size.

Installing LPD NUVU Folding will not only afford additional space, but also add value to your property, so for professional developers and homeowners alike, they're clearly the perfect choice both aesthetically and financially.

Key Features & Benefits

- Available in 7 widths across 3 finishes
  - unfinished Oak; pre-finished Oak; pre-finished White
  - provides optimum breadth of choice
- 44mm thick with a thermally efficient, argon filled, tempered, double glazed unit giving a whole product U value of 1.8W/m²K
- Helps minimise heat transfer and lower the carbon emissions
- Fully Part F and Part L compliant
- Weather tested to BS 6375 Part-1:2009 (with aluminium cill incorporated)
- Fully reversible - can be installed to open either left to right or right to left
- Outward opening (all configurations)
- Top hung for effortless and unimpaired operational performance
- High performance, chrome effect hardware & handles
- Robust Multi-point locking systems on all access doors
  - additional key lockable drop bolts fitted as standard
- Trickle ventilation provided through the frame head
- Aluminium cill for optimal drainage and durability
- Full height glazed doors
  - optimises the amount of "borrowed" light
- Majority of components are pre-machined
  - improved speed and ease of on-site assembly

Please note, LPD's NUVU Folding doorsets are only available in the respective sizes, finishes and glazing options detailed - they cannot be custom made.

NUVU FRENCH EXTERNAL DOORSETS

To capitalise on the continuing demand for quality, aesthetically pleasing and affordable French Doors, we've added LPD NUVU French to the NUVU stable. Like LPD NUVU Folding, they offer a lifestyle solution by "connecting" the outside with the inside and are an extremely economical way of effectively extending the "living" space without the need for costly extensions.

LPD NUVU French doorsets come in a standard height of 2090mm and are available in three different widths - 4'; 5'; 6' – and the same 3 attractive and fashionable finishes as LPD NUVU Folding, notably unfinished Oak, composed of FSC certified Oak veneer applied to an engineered timber core, pre-finished Oak, which is treated with tinted lacquer at the point of manufacture, or pre-finished White produced from FSC certified softwood and protected by a durable, solvent based, 3 part high-build exterior paint system.

An ingenious frame and cill design means they can be installed to be either outward opening or inward opening, to suit a personal preference or, satisfy architectural restrictions or constraints or the flow of the property, and to maintain design integrity, door stile and rail profiles are consistent with LPD NUVU Folding.

Available ex-stock as either a full out glazed Pattern 20 design or an 8 Light design formed by using adhesive astragals that cleverly give the illusion of individual panes of glass, without the associated cost, both offered with complementary sidelights. These beautifully crafted doorsets will add elegance and kerb appeal to any exterior.

NUVU FOLDING/SLIDING INTERNAL DOORSETS

For those looking for an alternative to more conventional Room Dividers, then LPD NUVU Roomfold is the ideal solution.

These ingenious modular internal Folding/Sliding doorset kits allow you to quickly and effortlessly open up the living space whenever the need arises, and just as swiftly and easily "partition" off adjoining rooms when privacy is required or a bit of much needed peace and quiet is the order of the day!!!

Designed to support a maximum load weight of 25kg per door leaf, the universal tracks coupled with the corresponding frames facilitate the following configurations using multiples of either 21", 24" or 27" leaves: 3+0; 3+1; 3+3; 5+0; 5+1

In simple terms what this means is, unlike certain other internal folding/sliding doorsets on the market, where you're restricted to the manufacturers' choice of door design, LPD NUVU Roomfold affords you the freedom to choose virtually any internal door model from the extensive LPD offering, enabling you to create a "customised" solution that satisfies your very personal aesthetic tastes, existing décor and the architectural specification of your interior.

Or put another way, thanks to LPD NUVU Roomfold, even the most uncompromising no longer have to compromise!!!

LPD has earned a worthy reputation as a market leader in both internal and external doors with a proven and prolific record in delivering exciting, innovative, affordable products to the marketplace, that keep pace with the fast-moving trends of the British interiors market and the needs of an ever more discerning nation of consumers with increasing flair and passion for more modern interior design.

Further enhancing and elevating our enviable reputation - Europa - a premium, pre-finished designer range of both flush and stile & rail doors, encapsulating the essence of European elegance.

Targeted towards the more aspiring buyer, the Europa collection combines sophisticated style and superb engineering with an exceptional quality of finish and encompasses glazed and unglazed models, including selected firecheck options, across a range of "in-vogue" finishes and popular sizes, all covered by LPD's conditional Guarantee… making it the perfect choice for Architects, Specifiers, Developers, Self Builders and everyone involved in replacement, renovation or new build projects striving to achieve a premium, upmarket look, in the most ultra modern or period property.

Europa

EUROPA FLUSH DOORS

As the beginning and end of a journey through the room, doors form an integral part of the room's interior styling whilst enhancing the principal design theme.

With this foremost in our mind, we've developed a cutting edge collection of flush doors that will be as much at home in a loftstyle apartment, swish boutique hotel or upmarket office development, as a tasteful barn conversion, smart semi or imposing detached.

From the avante garde Alcaraz to the modish La Mancha to the suave Sierra Blanco, the doors epitomise the utmost in contemporary chic and suburban sophistication, and will undoubtedly add the perfect finishing touch to any newly designed or refurbished room.

All Europa Flush Doors are pre-finished.

All Europa non firecheck doors are supplied 35mm ($1\frac{3}{8}$") thickness, except metric sizes which are supplied 40mm ($1\frac{5}{8}$") thickness. All half hour Firecheck doors are supplied 44mm ($1\frac{3}{4}$") thickness

---

We are delighted to be able to offer special sized doors in most models within the Flush Door range, which include storey height sizes.
NB – Delivery and availability subject to confirmation at the time of enquiry.

Working with some of the world's most advanced manufacturers and the most fashionable timbers, we've brought to the market an aspirational range of more traditionally styled doors that will stir the senses of even the most discerning consumers and interior designers and specifiers.

Boasting striking yet understated aesthetics, engineered with precision to accentuate the subtle profiles and intrinsic design features and finished to the most exacting standards, they'll enhance the character and ambience of any room and make a stylish first - and last - impression whatever their surroundings - from homely cottage to an imposing period residence.

The glazed models all incorporate clear bevelled glass as standard with the added benefit that each model also has an FD30 firecheck variant featuring a flat glass.

All Europa Stile & Rail Doors are pre-finished.

All Europa Stile & Rail non firecheck doors are supplied 35mm ($1\frac{3}{8}$") thickness, except metric sizes which are supplied 40mm ($1\frac{5}{8}$") thickness. All half hour Firecheck doors are supplied 44mm ($1\frac{3}{4}$") thickness

---

We are delighted to be able to offer special sized doors in most models within the Stile & Rail Door range, which include storey height sizes.
NB – Delivery and availability subject to confirmation at the time of enquiry.

SUPERMODELS

Designer doors, off the peg prices….introducing LPD's Supermodels.

The Latin inspired Supermodels continue to captivate the designer door world and give fashion aficionados plenty to get hot under the collar about!!

All graced with head turning looks, they possess a certain refinement and panache that sets them apart as extraordinarily special.

It's no secret that in the sphere of Supermodels, alluring, arresting aesthetics are everything and their sleek, elegant lines, delicate yet distinctive features, ensure they radiate style and sophistication in abundance.

Now with 16 beguiling beauties to choose from, across a range of popular sizes and "in vogue" finishes, and the recent inclusion of glazed firecheck options, these fully factory pre-finished paragons of perfection that exemplify haute couture refinement at affordable, off the peg prices, will stir the senses of those who appreciate innate finesse and eminent star quality and simultaneously satisfy the continuing trend towards more modern interior design.

All Supermodels Doors are pre-finished.

All Supermodels non firecheck doors are supplied 35mm ($1\frac{3}{8}$") thickness, except metric sizes which are supplied 40mm ($1\frac{5}{8}$") thickness.
All half hour Firecheck doors are supplied 44mm ($1\frac{3}{4}$") thickness

LPD are proud to be a strategic partner of Artema Puertas, one of the world's leading and most accomplished door manufacturers.

Their expertise in producing premium doors, using the highest quality, natural woods, is unsurpassed, and their cutting edge approach to design means there's a constant stream of contemporary products hitting the market.

Our first joint venture has resulted in the introduction of the remodelled Vancouver offering which perfectly complements the existing Supermodels range. If you want to see more examples of their acclaimed capabilities visit: **www.artema.es**

CONTEMPORARY OAK

Whilst apartment/loft style living continues to appeal to those seeking a more "contemporary" lifestyle, exceptional value for money has never been more "in-vogue", which is why our surprisingly affordable Contemporary range is perfect for those in the market for doors boasting sophisticated, aspirational looks and a price tag that belies the exceptional quality of finish.

The range's signature is clean, simple lines which allow the enchanting natural qualities of the carefully selected timbers to really shine. Equally careful consideration has been given to the use of frosted, figured and clear bevelled glass, which beautifully enhances the aesthetics of the glazed models and brings an added dimension to this outstanding offering.

All Contemporary Oak Doors are unfinished.

All sizes 78" x 18"; 21"; 24"; 27"; 30"; 33" and 80" x 32" are supplied 35mm (1 3/8") thickness

All sizes 2040mm x 626mm; 726mm; 826mm are supplied 40mm (1 5/8") thickness

All half hour Firecheck doors are supplied 44mm (1 3/4") thickness

Increasingly popular and undoubtedly visually striking, Walnut brings a warmth, refined elegance, sense of sophistication and sheer decadence to any environment which it adorns.

This delectable duo can't fail to stir the soul.

All sizes 78" x 24"; 27"; 30"; 33" and 80" x 32" are supplied 35mm ($1^{3}/_{8}$") thickness

All half hour Firecheck doors are supplied 44mm ($1^{3}/_{4}$") thickness

PRE-FINISHED OAK

For those who prefer a slightly easier life and don't want the responsibility of finishing the doors, our superb collection of pre-finished solid panel, glazed and unglazed Oak models, are the solution.

Perfectly at home in a traditional or modern setting and with numerous firecheck options available to maximise the breadth of appeal and versatility, the offering is ideally suited to new build applications as well as remodelling or renovation projects.

All sizes 78" x 24"; 27"; 30"; 33" and 80" x 32" are supplied 35mm (1 3/8") thickness

All sizes 2040mm x 626mm; 726mm; 826mm are supplied 40mm (1 5/8") thickness

All half hour Firecheck doors are supplied 44mm (1 3/4") thickness

ELEGANCE OAK

The popularity and undiminishing demand for this premium, tried and tested range of more classical White Oak door designs remains unprecedented.

The collection principally comprises designs featuring raised and fielded panels and solid Oak bolection beads/mouldings and panels, along with a variety of glazed options, the reassuring common denominator being all models are established, proven sellers.

All Elegance Doors are supplied unfinished.

All sizes 78" x 18"; 21"; 24"; 27"; 30"; 33" and 80" x 32" are supplied 35mm (1 3/8") thickness

All sizes 2040mm x 626mm; 726mm; 826mm are supplied 40mm (1 5/8") thickness

All half hour Firecheck doors are supplied 44mm (1 3/4") thickness

All half hour Firecheck doors are supplied 44mm ($1^{3}/_{4}$") thickness

NOSTALGIA PITCH PINE

This traditionally styled range with a distinctly nostalgic flavour is absolutely ideal for anyone wanting to give their home an authentic period look at an affordable price.

To recreate the attractive and highly desirable aesthetics of a by gone era, the range incorporates extra wide mid and bottom rails as well as some traditional craftsmen type construction methods, including mortice & tenon joints in the Pitch Pine versions.

These desirable nostalgic qualities are beautifully accentuated by the use of fashionable White Oak and Pitch Pine, a distinctive timber boasting a characteristic warmth, that's both enduring and eminently pleasing to the senses.

All Nostalgia Doors are supplied unfinished.

All sizes 78" x 24"; 27"; 30"; 33" and 80" x 32" are supplied 35mm ($1\frac{3}{8}$") thickness

It should be noted that the glass packs complementing the glazed models are supplied separately.

PINE

Pine, thanks to its seemingly timeless appeal, simply never goes out of fashion.

Our extensive range of knotty, semi-clear and clear pine single leaf doors and casement pairs, are purpose designed to meet more modest budgets but without any obvious compromise on aesthetics or quality. Indeed the semi-clear and clear pine options continue to be manufactured with a degree of engineered components to help combat the natural potential for both warping and shrinkage.

Sitting alongside the "old faithfuls" that have patently lost none of their appeal amongst those unable to resist the alluring charm of pine, are the Florida 5P and 4L "new kids on the block" that offer a subtle, more contemporary design theme.

Please be reminded however, that regrettably, due to the slightly unstable nature of the timber used to produce knotty pine doors, and in line with normal practice, we are unable to offer any guarantees against warping, shrinkage or splitting on these particular products.

All Pine Doors are supplied unfinished.

All sizes 78" x 15"; 18"; 21"; 24"; 27"; 28"; 30"; 33" and 80" x 32" are supplied 35mm ($1^{3}/_{8}$") thickness

All sizes 2040mm x 626mm; 726mm; 826mm are supplied 40mm ($1^{5}/_{8}$") thickness (except Knotty Pine which are supplied 35mm ($1^{3}/_{8}$") thickness)

All half hour Firecheck doors are supplied 44mm ($1^{3}/_{4}$") thickness

If you're looking for a white, premium primed door with modern, clean, crisp styling, that's ready for final finishing, then this more heavy duty range of solid core, single leaf and casement pairs, is well worthy of consideration.

To cater for the full spectrum of personal taste, from the more traditional to the more contemporary, we've introduced into the range several new solid and glazed models, many featuring toughened glass.

We're convinced when you see the quality of the factory primer coat, you'll have difficulty believing the doors are not fully finished.

Naturally however, as impressed as we are (and expect you to be) with the quality of the finish, just to be on the safe side and equally as importantly, to fully validate the comprehensive LPD Guarantee, we'd definitely recommend a further treatment application prior to hanging.

All sizes 78" x 24"; 27"; 30"; 33" and 80" x 32" are supplied 35mm ($1\frac{3}{8}$") thickness (except Paris 5P and all Peony models which are supplied 40mm thickness)

All sizes 2040mm x 626mm; 726mm; 826mm are supplied 40mm ($1\frac{5}{8}$") thickness

All half hour Firecheck doors are supplied 44mm ($1\frac{3}{4}$") thickness

Casement pairs 78" x 46" are supplied 40mm ($1\frac{5}{8}$") thickness

WHITE MOULDED

Despite the breadth of competitively priced alternatives available, the intensely price driven market for white moulded doors remains unprecedented

Practical, functional and undeniably cost-effective, our white moulded doors are identified by their clean, simple lines making them suited to complementing most interior décor schemes.

The 4 textured moulded models are all supplied factory pre-primed across a range of ex-stock sizes.

Even allowing for the fact that these are undeniably budget priced doors, we guarantee you'll be wholly impressed by their quality in comparison to many competitor products on the market.

All sizes 78" x 18"; 21"; 24"; 27"; 28"; 30"; 33" and 80" x 32" are supplied 35mm (1 3/8") thickness

All sizes 2040mm x 626mm; 726mm; 826mm are supplied 40mm (1 5/8") thickness

All half hour Firecheck doors are supplied 44mm (1 3/4") thickness

In terms of the importation and distribution of internal hardwood doors, it's fair to say, for many years, LPD have lead where others have merely followed.

The Senator range of products remains hugely strategically important and consequently our resolve to provide our customers with the widest range of models and sizes available ex-stock is unfaltering. Correspondingly, we remain fully committed to our stated objective of underpinning it with an in depth ex-stock capability allied to a minimum weekly delivery service.

Working closely with our partner suppliers and drawing on their unparalleled expertise in manufacturing high quality doors utilising engineered components and optimising the use of the available raw material, has enabled us to continue to evolve the range, whilst still placing paramount importance on fundamental ecological and environmental issues.

The result of our labours is a collection of eye-catching, inspiring, single leaf options, including several incorporating distinctive diamond bevelled glazing, guaranteed to add flair and individuality to any room they grace.

There's also a wide choice of glazed or unglazed casement pairs, which like many of their single leaf contemporaries, feature clear bevelled glass.

All Senator Doors are supplied unfinished.

All sizes 78" x 24"; 27"; 30"; 33" and 80" x 32" are supplied 35mm ($1^{3}/_{8}$") thickness

All sizes 2040mm x 626mm; 726mm; 826mm are supplied 40mm ($1^{5}/_{8}$") thickness

Casement pairs 78" x 36"; 42"; 46"; 48"; 54"; 60" are supplied 40mm ($1^{5}/_{8}$") thickness

Introducing a "trade" range of internal Hemlock faced, engineered doors, constructed using a laminated fir, finger jointed core and supplied with loose pinned Hemlock glazing beads.

Key features/benefits include:

- 95mm stiles and top-rails to more easily accommodate standard locks and handles
  - most alternative products typically incorporate 80mm stiles and top-rails
- 10mm Hemlock lipping
- all timber used in the manufacture of the doors comes from well managed sources
- all doors are supplied ready for final preparation prior to finishing with a suitable treatment

---

All doors are supplied 35mm ($1^{3}/_{8}$") thickness.

All doors are supplied unglazed.

Fully mindful of the fact that fashion even dictates the trends in external doors, you'll discover that many of our "OUT" doors are indisputably "in doors".

As a timber that remains very much in fashion, we've heightened our endeavours to bring to the market an extended range of more contemporary Oak doors to sit alongside our substantial and expanded range of Hardwood doors, collectively catering for a variety of tastes and budgets, from the more functional, pocket friendly Sterling range, to the premium quality double and triple glazed models.

Historically constructed predominantly from Hardwood by one of the world's leading manufacturers of premium quality doors, the Adoorable range continues to be pivotal within our external doors offering. Consequently, in response to changing consumer tastes, and growing demand, we've brought to market under the acclaimed Adoorable banner, a superb offering of panel and double, and even triple, glazed Oak doors that beautifully complement the diverse and constantly developing range of more traditionally styled insulated glazed Hardwood doors.

Interesting, distinctive, and in certain cases, ornate glazing, individually tailored to be in total empathy with the respective model, remains not only a key design feature, but also a huge factor in the enduring and unwavering success of this exceptional range.

All Adoorable Doors are supplied unfinished.

All doors are supplied 44mm ($1\frac{3}{4}$") thickness

CLASSIC HARDWOOD

Excepting the double glazed Acacia Bevelled Cluster, a diverse range of single glazed Hardwood doors that utilise an irresistible array of up to the minute coloured and textured foil effects, clear and coloured bevels and ABE leadwork designs.

The eye-catching offering is further enhanced by a quartet of "Classics" featuring delightful smoked glazing, that really adds an extra dimension to an already highly desirable and affordable collection.

All Classic Doors are supplied unfinished.

All doors are supplied 44mm ($1^{3}/_{4}$") thickness and include glued and dowelled joint construction

HEMLOCK

A traditionally styled, trade range, targeted towards more price driven projects.

The Hemlock faced, engineered doors are constructed using a laminated fir, finger jointed core and supplied with loose pinned Hemlock glazing beads.

Key features include 95mm stiles and top-rails to more easily accommodate standard locks and handles and 10mm Hemlock lipping.

The Redwood range of external doors, garage doors and complementary garden gates are manufactured to a high standard using European Redwood. All external doors are rebated to accommodate a 14mm Double Glazed Unit.

The entire Hemlock and Redwood offering is supplied ready for final preparation and finishing with a suitable treatment prior to installation.

All doors are supplied 44mm ($1^{3}/_{4}$") thickness

IN THE PIPELINE

In order to stay ahead of the competition, and ensure our range is continually "on trend", we invest a substantial amount of time and resource in new product development…
…here's just a taster of some of the doors currently being developed with a view to bringing additional models to market in the foreseeable future…watch this space!!!!

FINISHING GUIDELINES

External Doors

Although we do not demand that our unfinished products are finished using the Sikkens system, we stipulate that only the use of a treatment affording at least the same level of protection as provided by the Sikkens system constitutes an acceptable alternative and consequently, it is only in these circumstances that any conditional Guarantee can be offered.

For further information visit:www.lpddoors.co.uk/sikkens

Internal Doors

The same "guidelines" as detailed above for External doors apply to Internal doors. However, additionally we can also confidently recommend Osmo Door Oil as a suitable finishing treatment, as it has been comprehensively tested by Osmo and is specifically recommended by them for use on internal engineered products.

For further information visit:www.lpddoors.co.uk/osmo

10 YEAR GUARANTEE

All doors supplied by Leeds Plywood & Doors Ltd., hereafter referred to as LPD (except those doors expressly excluded from this guarantee by LPD, effective as at 1st November 2004) are guaranteed by LPD for ten years from date of delivery, and at that time, to be of good material and workmanship and to be free of defects which would render said doors unserviceable and/or unfit for the ordinary, recommended use.

This guarantee is made to the original purchaser only and does not extend to subsequent purchasers during the period of this guarantee.

If at the time a door delivery is received, said door(s) are found to have a defect(s) which can reasonably be discovered by inspection of each door, the receiver of the door(s) must, prior to hanging or fitting, and within 3 days, send written notice of said discovered defect(s) to LPD. All doors should be fully inspected prior to altering or fitting - any work on the door shall constitute acceptance.

If a fault rather than defect develops after the door is fitted, written notice of said fault(s) must be sent to LPD within ten years from date of delivery.

No claim will be honoured unless a site inspection is performed by an authorised representative of LPD. (At the discretion of the company).

If guaranteed doors are found to contain defects/faults as stated herein, LPD, at our option will either, repair defective/faulty door(s) furnish purchaser with replacement door(s) or refund to the current owner the amount the original purchaser paid LPD for the returned defective/faulty door(s). This guarantee does not cover any other charges incurred such as labour for removal of defective door, rehanging of new and/or replacement door, transportation to and from site or reimbursement for any other work/service not originally supplied by LPD.

Important Information

Some of the doors in this publication have been pre-finished and are therefore not necessarily an exact facsimile of the actual door.

Due to manufacturing process, colours and specification of the products may vary from those shown.

Due to the vagaries of the reproduction process, actual colours may vary from those shown.

It is recommended that doors should be purchased for a project as a "batch", so as to limit the natural occurrence of veneer colour/grain variation.

In any event, we cannot control what should be regarded as a natural variation of colour/texture from door to door.

From time to time it may also be necessary to vary the type of finish used on our pre-finished doors. This must be accepted as another factor that can contribute towards a colour/texture variance.

All doors are supplied unglazed unless otherwise stated.

The glass on the clear glazed models is non-bevelled unless otherwise stated.

All glazed firecheck doors incorporate flat glass unless otherwise stated.

The information in this publication is correct at the time of going to press and may be subject to change without prior notice.

Due to our policy of continuous product development, we reserve the right to amend product designs, alter specifications or withdraw products without prior notice.

All products are subject to availability.

Errors and omissions excluded.

Further details of this conditional guarantee, and details of limitations and exclusions can be found on www.lpddoors.co.uk/guarantee or can be requested from LPD.
